

# Jamal Keita : Software Engineer

## Summary

Aspiring Software Engineer transitioning from a background in Sport Science with a strong fundamental understanding Python programming and cloud technologies. Certified in Azure Fundamentals (AZ-900) and Azure Data Fundamentals (DP-900), demonstrating a deep understanding of cloud services and data management. Passionate about developing technical expertise to make a meaningful impact in the software industry and eager to contribute to innovative projects within a dynamic software engineering team.

## Working Experience

### Receptionist at Uitas | Part-time , London

September 2023 - [Present]

- Managed incoming calls, emails, and inquiries, providing accurate information, or directing them to the appropriate personnel.
- Assisting in maintaining organised records, including participant registrations and sign-in/out procedures.
- Fostered a supportive and inclusive atmosphere for the youth by being approachable and attentive to their needs.

### Market Research Interviewer at BMG Research | Full-time, Remote

[July 2022] - [December 2022]

- Generated comprehensive qualitative research insights by consistently posing open-ended questions to respondents, effectively demonstrating strong written communication abilities.
- Consistently outperformed company targets, achieving a remarkable survey completion rate of 70%, driven by my adept understanding of newly assigned project tasks.
- Efficiently analysed and synthesized complex data sets, leading to the identification of key trends and actionable insights.

## Education

Bachelor's in Sports and exercise Science | Nottingham Trent University , Nottingham | [2020] - [2023]

## Projects - view all my open-source projects :

<https://github.com/Jamalkz1>
